

What makes us different?

Our expert focus
generates results

We work with you,
hand in hand

We adhere to
ethical standards

We subscribe to the Association of Fundraising Professionals **Donor Bill of Rights**

Our clients agree

“I know we would not have made this kind of progress without Beth and Bill’s help. Beth is providing personalized attention to our donors and to CHSC, which has allowed us to really move forward. I have worked with at least 100 consultants, and this has been by far the most effective relationship of all.”

*- Dr. Bernard Henri
CEO, Cleveland Hearing and Speech*

“Through your active involvement, the division is poised to meet its strategic objectives and take advantage of opportunities for future growth. Your expertise in the field was invaluable to us and the division staff.”

*- Nancy Ellis McClenaghan
President and CEO, Goodwill Industries Akron*

“I want to share with you the wonderful job that Rev. Dr. Bill Kimball has done. He did a splendid job of leading both our stewardship and capital campaign. We had a 30% increase in both pledges and dollars pledged for 2011 and we gathered more than any year in our history and ended with over \$7,000 in the black.”

*- Rev. H. Daniel Drew,
Chardon United Methodist Church*

Experienced, efficient experts

The team of Kimball Consulting is uniquely qualified to lead you to unlocking your organization's potential:

1. Experience – our team has experience in every nonprofit sector. We know what works and what does not work, and so we focus only on those activities that are proven to succeed.
2. Efficiency – our experts focus on your goals so that everyone brings the highest level of effective and efficient energy to designing and implementing your plan of action.
3. Expertise – fundraising is very competitive. Our team knows what opportunities are out there for an organization with your needs and can successfully achieve the specific goals we set so that your vision becomes a reality.

Kimball Consulting, LLC

- Board fundraising training ...
“taking the fear out of asking for money”

Our process

In 2005 Kimball Consulting was formed to address the most critical needs for churches and other nonprofit organizations.

Good leadership knows what needs to happen, but it is often unable to implement change due to lack of resources, staff, and focus. We partner with you to define and achieve your goals with the resources available to you.

The problem that most of our clients face is not a lack of information, but the lack of a practical path to navigate through the virtual ocean of information. Our professional consultants help you design the most efficient, proven course and work with you hand in hand to achieve your goals.
